Hong Kong · Eligible to work in Hong Kong | +852 5100 5685 | kemengzhai@gmail.com

SUMMARY

Visual designer with a studio-art background and an MA from NYU, working across brand identity, illustration, digital interfaces, photography and video. I built the visual identity of my own ceramics brand, kemeng studio, and run its website and social content end to end. Comfortable bringing generative AI tools into a professional design workflow.

EXPERIENCE

Founder & Brand Designer | kemeng studio — Oct 2024 – Present
Independent ceramics brand · London, UK → Hong Kong

- Created the brand's visual identity and applied it consistently across the Shopify website, product photography and social channels.
- Shoot and edit all product photography and short-form video for Instagram and Xiaohongshu, and write product descriptions and captions.
- Designed and launched the Shopify store, selling handmade ceramics online and through a London retail partner.

Freelance Illustrator | Ello Technology · Remote — Jul 2023 – Aug 2023

- Delivered 40+ illustrations for a children's reading platform, combining Photoshop and Illustrator with generative AI tools and developing a distinct visual style for each story.

Learning Game Designer | A Free Bird · New York, NY — Jul 2022 – Oct 2022

- Designed interfaces and visual assets for gamified educational content, iterating with developers through to the website launch.

Digital Design Assistant | NYU Steinhardt School of Education · New York, NY — Nov 2021 – May 2022

- Designed posters, infographics and video assets for programme events, including the ECT Design Expo and Career Series.
- Kept visuals consistent across print, social media and the programme website, which I updated and maintained.

Marketing Specialist | Phemia Education Consulting · Remote — Feb 2021 – May 2021

- Produced social graphics, blog visuals and videos with a consistent branded look, growing followers by 40% and engagement by 25%.

SELECTED PROJECT

Pottery Master – VR Pottery Learning | NYU Master's Thesis — 2023

- Designed the UI and every 2D/3D asset – studio environment, clay and pottery models, interface panels – in Figma, Blender and Photoshop. Won the Excellent in Prototyping Award.

EDUCATION

New York University | MA, Learning Technology & Experience Design — Dec 2023
University of Miami | BA, Studio Art and Economics (Double Major) · graphic design & photography — Dec 2020
